

I listen to K-Love every single day, every time I go in my car. I spend over an hour a day just getting to and from work with K-Love on the radio. There are very few radio stations on which one can hear the Gospel, hear quality Christian music and hear encouraging messages about God and how He is working in the lives of others. So many of the broadcasts on radio today are full of music and information that is not encouraging to Christians, it is so wonderful to have the choice to listen to K-Love. People need more encouragement in their lives, not less, so please don't take away the opportunity for K-Love to broadcast their encouraging message! I believe K-Love provides an incredible service to our communities by providing millions of K-Love listeners with Christian music, Christian messages, Christian events and Christian values. K-Love is a place where people can turn for help and prayer when they really need it, often when they feel like they have no other place to turn. Thousands of people make decisions to follow Christ and God through the message they hear on K-Love. The choice to follow God brings with it the message to "Love your neighbor as yourself" and that can only help a community!
